Trinity Advocacy Group | Oak Brook, Illinois

Are you an experienced aging-services professional who wants the time, autonomy and team support to do truly meaningful work?

Trinity Advocacy Group is growing. We're looking for a thoughtful, resourceful **Care Manager** who can build trusted relationships, navigate complicated situations and help older adults and their families make informed decisions.

What you'll do

- Assess needs and develop proactive, person-centered care plans
- Coordinate healthcare, home-care and community services
- Attend client visits and medical appointments, if needed
- Advocate for clients during transitions, crises and everyday challenges
- Communicate clearly with clients, families and professional partners

You may be a great fit if you have

- Professional experience in gerontology, occupational therapy, social work or a related human-services field
- Strong knowledge of aging, healthcare or the long-term-care continuum
- Excellent judgment, communication and care-planning skills
- The flexibility and resilience to manage changing client needs
- A genuine commitment to honoring each client's values and autonomy

You'll have a collaborative team, regular support and the opportunity to develop lasting client relationships, not one-and-done interactions. This position includes local travel and participation in a shared telephonic on-call rotation.

Salary: starting at $70,000 (commensurate with experience)

Benefits: Health-insurance, bonus opportunity, retirement plan with match, PTO, and more.

Ready to do excellent work with people who care deeply about doing it well? We'd love to meet you.

Interested? We'd love to hear from you.
Send your resume to **info@trinityadvocacygroup.com**. If your background appears to be a good fit, we'll start with a brief introductory conversation and take it from there.
